Title of Research Study: AIM-AHEAD M-POWER Machine Learning & Artificial Intelligence Needs Survey

Principal Investigator: Amina A. Qutub

Purpose of the Study and Reason for Your Involvement:

We invite you to take part in a research survey to learn more about the needs for machine learning and artificial intelligence for your institute and research unit. We are gathering information from AIM-AHEAD stakeholders and the general public in order to understand and help inform what open-source artificial intelligence and machine learning tools we provide as an AIM-AHEAD Data and Infrastructure Capacity Building Center.

Participation in the Study:

- Whether or not you take part is up to you.
- Participation is totally voluntary.
- All questions are voluntary.
- Data is deidentified and used in aggregate.
- You can agree to take part in the study and later change your mind.
- Your decision not to participate will not be held against you.
- You may ask all the questions you want about the study before you decide.

Contact information:

If you have questions, concerns, complaints, or think the research has harmed you, you may talk to the research team at: PI Amina A. Qutub, PhD (amina.qutub@utsa.edu)

This research is being overseen by an Institutional Review Board (“IRB”). You may also contact them at IRB@utsa.edu if you have questions regarding your rights as a research participant or other questions, concerns, or complaints.

Participant Role in the Research Study:

This online survey takes ~4 to 5 min to complete. If you wish to be contacted after the survey, provide your input on additional surveys for M-POWER, or provide follow-up information on the resources for AIM-AHEAD M-POWER Machine Learning & Artificial Intelligence Needs Survey, your provided contact information (email) will be used to connect and provide follow-up information.

Additional information:

This research is being funded by NIH AIM AHEAD

Risk, Benefits, Costs, and Compensation for Participation:

There are no reasonably expected risks associated with participation. There are no costs or compensation for participation.

Participant Privacy and Research Record Confidentiality:

The surveys will be anonymous. Your research records will not be released without your consent unless required by law or a court order. Your records may be viewed by the Institutional Review Board, but the confidentiality of your records will be protected to the extent permitted by law. The data resulting from your participation may be used in publications and/or presentations but your identity will not be disclosed. Participants can contact the research team (PI Amina A. Qutub, PhD (amina.qutub@utsa.edu)) if they wish to withdraw their data from the study.
